## MARGARET WASIUTA WINS “DIAMOND AWARD OF EXCELLENCE” ABSTRACT - FEBRUARY 2021

“FLOW”

"Inspired by life and people, my painting is a way of story telling. Using the language of colour and lines, I attempt to translate my feelings onto the canvas. I am devoted to communicating and sharing my experience, thoughts, memories and the musical flow that substantiates my world of emotions. My most recent artwork tends to focus on the creation of a structural space - one which represents an atmosphere of personal experience and resonates with an active state of mind. This is achieved by integrating organic and geometric building blocks with one another to create a surface of emerging structures and forms. It is quite hard to translate what I do into words but I hope that it can guide some viewers to pause and connect more deeply with their senses." -- MARGARET WASIUTA
